named after him.**

Conversation Exercise:

Answer the following questions with INTENT!

**Name the cardinal
symptoms of Parkinson's.**

**What resources are
available to people with
Parkinson's today?**

Bonus Reading: Read the passage two times. Use MORE INTENT the 2nd time!

James Parkinson occupies a unique position in the history of Parkinson's disease. As the man responsible for originally identifying and describing the disease that he called the Shaking Palsy, his name is familiar to anybody with a

**connection with the
disease - patients, carers,
clinicians, and members
of the general public
alike.**
