

# Reading:

**Male and female African elephants grow large tusks.**

Asian elephants' backs are more rounded.

Asian elephants have 4 toenails on their back feet.

African elephants have 3 toenails on their back feet.

# Conversation Exercise:

## Describe the Asian and African elephant images.

## Bonus Reading:

There are 40,000 muscles in an elephant's trunk. Elephants use their trunks for breathing, drinking,

feeding, grabbing, smelling, trumpeting, and social communication. African elephants have more whiskers on the tips of their trunks than Asian elephants.
