Reading: Read each sentence two times. Use MORE INTENT the second time!

Glaciers are slow-moving rivers of ice.

Gravity pulls the glacier down the mountain.

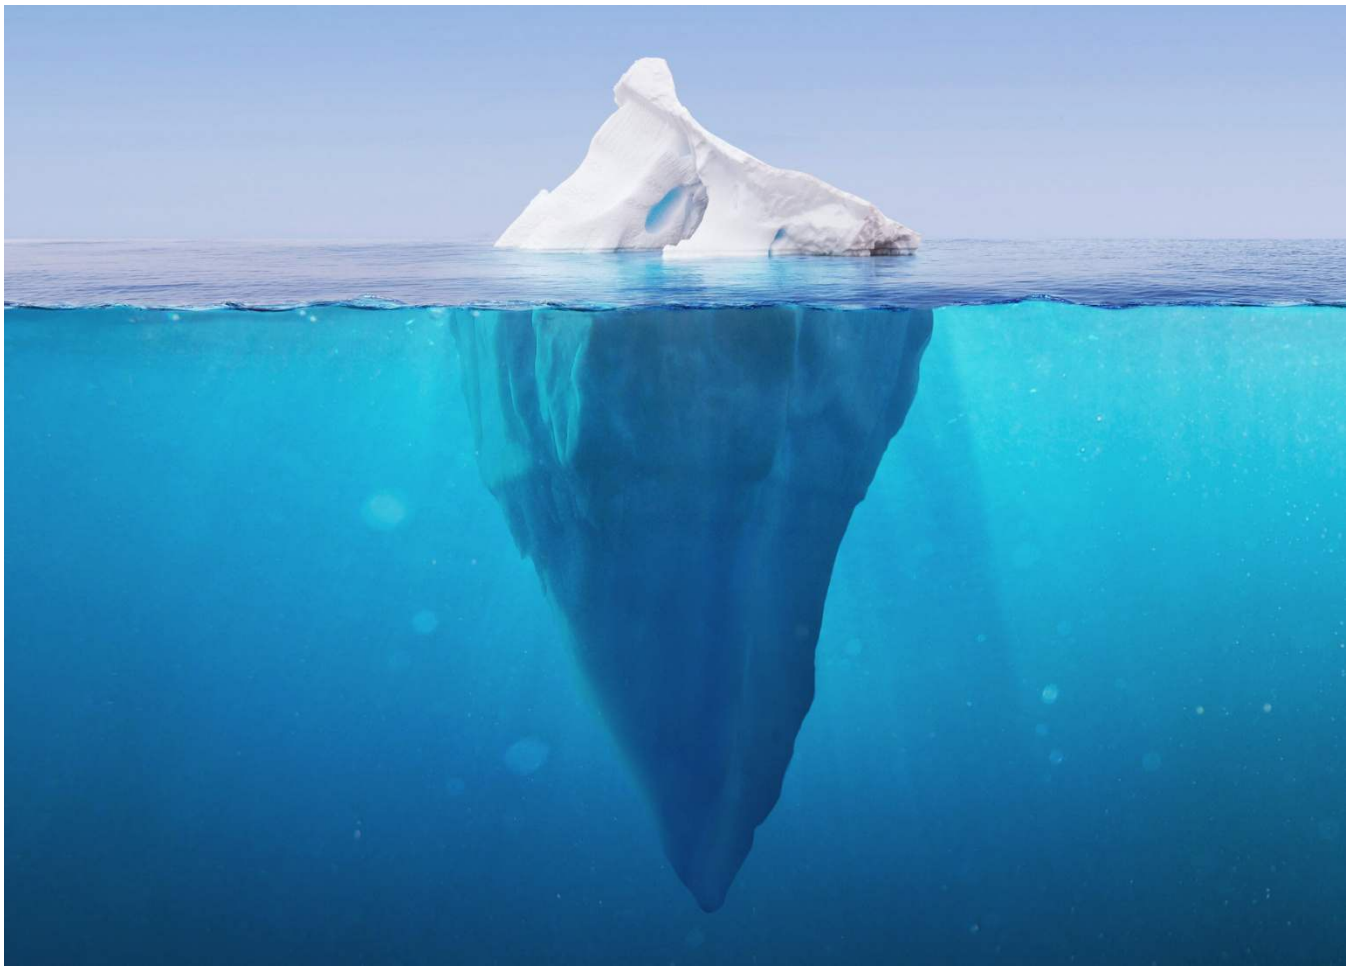

The source of a glacier is called an ice field.

Glaciers carve the land as they flow.

Conversation Exercise:

Answer with INTENT!

Bonus Reading: **Read the passage two times. Use MORE INTENT the second time!**

An ice field is like a bathtub that overflows. Water spills out, creating

the glacier. Some ice fields are more than a mile thick.

Thank you,

Larry from Washington!
