Join Our Team at Parkinson Voice Project!

The SPEAK OUT!® Therapy Program is helping people with Parkinson's REGAIN and RETAIN their speech and swallowing. And we're growing!

We are seeking THREE full-time Speech-Language Pathologists to join our team. Remote options will be considered.

At Parkinson Voice Project, we believe people with Parkinson's deserve as much speech therapy as they need. Because we do not bill insurance or Medicare, our SLPs can focus on patients, not insurance limitations!

Ready to Make a Difference? If you are ready to be part of a genuine, efficient, and high-performing team while earning a competitive salary with full benefits and a flexible work schedule, please send your resume with a cover letter to Brittany Scott, Lead Speech-Language Pathologist, at ***bscott@ParkinsonVoiceProject.org***.

Requirements:

- Texas-licensed (or willing to obtain Texas licensure)
- ASHA-certified SLP
- Medical SLP experience is preferred

Visit Parkinson Voice Project to learn more about our organization and the SPEAK OUT! Therapy Program.
